I am motivated and detail-oriented third-year Computer Science student at Debre Berhan University with a strong interest in web development and software engineering. Skilled in building responsive web applications and software projects using technologies such as HTML, CSS, JavaScript, React, and Python. Passionate about solving real-world problems through code and continuously learning modern development tools and frameworks. Demonstrates strong problem-solving abilities, teamwork, and a commitment to writing clean, maintainable code.

Education

Debre Berhan University
Bachelor of Science in Computer Science
2023 – Present (3rd Year)

Relevant Coursework:

- Data Structures and Algorithms
- Database Systems
- Web Development
- Software Engineering
- Operating Systems

➤ Technical Skills

Programming Languages:

Python, JavaScript, Java, PHP

Web Development:

HTML, CSS, React, Tailwind CSS

Tools & Technologies:

Git, GitHub, VS Code, Node.js, MySQL

Other Skills:

Problem Solving, Debugging, Version Control, Team Collaboration

➤ Projects

🚦 Personal Portfolio Website

Developed a responsive personal portfolio website to showcase projects, technical skills, and development experience. Built using modern frontend technologies and designed to provide a clean and professional interface for presenting work.

Technologies: React, Tailwind CSS, JavaScript

🚦 YouTube Video Downloader

Developed a Python-based tool that allows users to download YouTube videos directly by providing a video link. The application processes the URL and downloads the video in a user-selected format.

Technologies: Python

🚦 Virtual Classroom System

Designed and developed a full-stack virtual classroom platform that allows instructors and students to interact online. Features include course management, content sharing, and communication between students and instructors.

Technologies: React, Nodejs, MongoDB, Expressjs

Interests

- Web Development
- Artificial Intelligence
- Open Source Development
- Software Engineering
